Video editors, producers, and journalists can instantly play all occurrences of a spoken phrase in their media, then insert the perfect take into their FCP or Premiere Pro project, organize clips around keywords, and even find replacement words for problematic audio.. Particles Heaven is not a set of templates for Motion's own particle system Particles Heaven is in fact the first real FxPlug particle emitter plugin ever for Motion, Final Cut Pro, Final Cut Pro X and Final Cut Express.. Based on Nexidia's patented dialogue search technology - which has received accolades from Creative COW, DV Magazine, Post, and others - Boris Soundbite greatly reduces logging and transcription costs and lets you spend your time being creative instead of manually searching hours of video.
